

## **Bagger**

Perlite Canada, the most important perlite and vermiculite producer in Canada is searching for employees to fill a few bagger positions, at its St-Pacome facility.

The bagger's main responsibility is the installation and packaging of the different size bags according to the customer orders.

As part of his duties, the bagger must be able to drive a forklift and may be required to replace the operator, when need be.

The work schedule is in 12 hours shifts, on the 3-2-2-3 basis.

The skills required for this position is acquired by training provided internally.

Perlite Canada offers a competitive salary, benefits and a Group RRSR retirement plan with employer participation.

You are a dynamic, autonomous and resourceful person and you want to join a growing company, send your resume.
