

*« Perlite Canada Inc. and its customers participate in the food production chain by contributing to the production of essential growth substrates for food producers. As a result, Perlite Canada Inc. and its key customers are considered to be engaged in priority and essential activities and must maintain production. We are aware of the extraordinary nature of the current COVID-19 pandemic and are committed to maintaining our core operations in the best interests of all while respecting rigorous health measures to ensure health and the safety of our employees. ».*
